

PARENT SURVEY 2010-2011 - COMMENTS
Teachers & the administration are doing a very good job
Take 'stupid' & 'dumb' out of the teachers' vocabularies.
Need math tutoring
Campus needs repairs to wood decks
Maintain high standard of behavior - teachers too
Get NM Tech involved throughout the year
I have been around other kids in my child's age range, and CVCS kids are always ahead!
I like the new math program so far, my child seems to know/learn about lots of different math topics
I'm looking forward to having the construction project finished
Please post a classroom map
The buildings are good but the grounds have some hazards (upturned concrete, etc...)
It would be nice if there were a way to challenge individual students who are doing very well in certain subjects to go beyond the normal classwork.
Overall we are very happy
CVCS Kids are great kids, great staff, good job
I feel aware of pickup/drop off rules, but I don't believe all parents are...
Keep up the wonderful work!
Need more parent volunteers
Fix/improve the deck/landing areas of each classroom - Too many splinters.
Fix/improve the picnic tables!
Would like to get updates on the new building and future plans from the newsletter
Would like the opportunity for more after school activities...A list of the opportunities and contacts would be helpful
I am very pleased with the experiences I have had with my three year history at CVCS - Thank You!
Five stars!
Room for improvement, but the elements are in place for continued advancement.
Curriculum from the state is inadequate, so CVCS could go way beyond the standards set by NM
Pickup/drop off needs to be coordinated better - People park and take too long and block the area...Maybe make it wider so that others can pass
Wish it went to grade twelve
Warm place for eating lunch in the winter
Parent workshops in the evenings from a certified counselor w/babysitting provided.
Better prep/communication with SHS for the eighth grade class
A student council/campaign against bullying...Drug awareness (DARE)
Enclosed eating area
Great work CVCS!!!
Teachers setting up websites and listing homework assignments
Science could be more hands on, even in lower grades
I think less homework would be better
More opportunities for parents to get to know one another
I would like to see more computer usage in K-3 grades
