## PARENTS:

**Cell phones are wonderful tools, but at school, the student's phones are to be turned off and stored in backpacks or purses. Students may NOT use personal cell phones to call home—all phone calls must be made on the school phone with permission from school personnel. In cases of emergency, staff may permit students to use personal phones. The CVCS staff needs to be aware of any health or emergency situations that arise with students. CVCS also expects parents to call the school phone number if they have inquiries about their children. This is especially important since student's phones are to be OFF and out-of-sight during school hours. Thank you so much for working with the school to create a healthy learning environment!**
